

To: All Data Aire Representatives & Distributors,

Please be advised that prices in our online configurator, the Product Selector Guide ("PSG"), are updated as a result of periodic published price changes **at the time a quote is re-saved or when submitted as an order.**

One of these two actions must be performed to see an expired quote update to a current price. Until one of these actions is performed, only the expired price is viewed.

As always, we appreciate you for bringing Data Aire to market in your territory.

Eric Jensen,

VP/GM

Data Aire, Inc.
