

Reliable Environmental Control at Raymond James Stadium

Watching the Super Bowl this weekend? Data Aire Systems keep the lights, sound and audience engaged at Raymond James Stadium, the host for this year's Big Game.

Raymond James Stadium recently underwent renovations which resulted in the most technologically advanced HD video system in use today; recently rated #1 in NFL league technology. It is comprised of two massive 9,600 square-foot boards on both ends of the stadium – and four large 2,300 square-foot HD tower walls. With more than 31,000 square feet of video display space, this system ranks as the third largest video board system in the NFL.

Learn how Data Aire worked with Slade Ross Inc. to help Tampa Sports Authority achieve the impressive multi-million dollar renovation requisites of this facility with our multi-purpose environmental control system.

Data Aire environmental control systems provide precision cooling in More Places and More Spaces.

Stay Safe. Stay Inspired.
