

## Service Training Certification

Dear Colleague,

We're conducting an audit to ensure we have the names of each technician who has received certification through our training program; those who can start up and service our systems. Maintaining this list will go a long way towards streamlining and managing the contractual services we collectively deliver to our customers.

**Please review the list [HERE](#) to make sure we have accounted for everyone in your territory.**

You'll see that there are three certification categories:

- 1) those who are currently certified
- 2) those whose certification has lapsed and
- 3) those who haven't completed the certification, but have taken individual classes with Data Aire.

If someone is missing or you believe is categorized incorrectly, please note and highlight the line in yellow.

We'd appreciate your response by April 30th.

Please contact your regional sales manager with questions or comments.
