

## Current State of the Data Center Industry

The pandemic was an immediate stress test on the IT infrastructure of many businesses.

How have data center needs evolved during the pandemic and what lies ahead for mission critical cooling as businesses return to post-COVID operations?

Get a cool perspective on these hot trends:

- Enterprise response to a more distributed workforce long-term
- High[er] density cooling for increasing server rack densities
- Outlook for data center staffing
- How the Edge is evolving to meet demands of connected devices

Share this blog with your colleagues and prospects who want to keep up-to-date on the latest data center trends.
