

SPOTLIGHT

STANFORD HEALTH CARE Stanford, California

Stanford Health Care is part of the Stanford University Medical Center and serves as a teaching hospital for the Stanford University School of Medicine. It is consistently ranked as

one of the best hospitals in the United States and has delivered world-class health care to the Bay Area since 1959. It is internationally renowned for its outstanding care in cancer diagnosis and treatment, neurosciences, cardiovascular medicine, surgery, organ transplant, medicine specialties, and primary care. Their innovative medical breakthroughs and achievements include American's first successful adult human heart transplant, world's first successful combined heart/lung transplant, and first successful use of monoclonal antibodies to treat cancer. The Stanford Health Care medical staff is comprised of over 2,850 physicians providing outpatient care to more than 1.2 million patients and over 70,000 emergency room visits in the last fiscal year. ¹
