

SPOTLIGHT

WORLD TRADE CENTER New York City, New York

The new World Trade Center (WTC) is a sprawling 16 acre mixed-used environment composed of 5 iconic office towers... an 8-acre Memorial Plaza... and over half a million square feet of shopping and dining.

The WTC is home to dozens of smart, creative and growing companies including Moody's, Condé Nast, WilmerHale, BMI & MediaMath. These cutting-edge firms want to be in innovative, high-tech, green buildings, next door to unmatched mass transit options and world-class amenities, dining & retail.

The WTC is an ultra-convenient commute from the hot Brooklyn, Downtown Manhattan & New Jersey neighborhoods, where up-and-coming talent chooses to live. The WTC Transportation Hub makes it one of the most convenient places to access in the city.¹
