

**gForce Ultra by Data Aire, Inc. Chosen
as a Money-Saving Product by *BUILDINGS* Magazine**

Data Aire, Inc. is proud to announce that *BUILDINGS* has selected gForce Ultra as a 2018 Money-Saving Product winner. This product is a member of an elite group of 67 products showcased in the June 2018 issue of *BUILDINGS* and online at www.BUILDINGS.com.

Finalists were evaluated by the *BUILDINGS* editorial staff for the money-saving qualities they offer to building owners and facility managers in areas such as energy efficiency, water savings, and maintenance.

gForce Ultra was recognized by *BUILDINGS* Magazine because of its innovative V³ Technology™. The company has engineered variable speed compressors, variable capacity electronic expansion valves and variable speed fans into gForce Ultra. These three features allow Facility Managers and IT personnel to maximize their return on investment as they increase data center capacity throughout the life of the facility.

About Data Aire

Data Aire combines extensive expertise in control logic with world-class manufacturing capability recognized by key international quality certifications. For those seeking reliable, scalable, customized technology, we provide the solutions of choice. Our precision air control equipment and intelligent energy management solutions serve customers worldwide in diverse applications ranging from edge computing and collocation data centers, to markets such as telecom, archives, government, agriculture, airports and higher education.
